

Diversity and Inclusion Voluntary Survey

Before you begin the survey...

- This is a voluntary survey, and you may opt out of this process at any time.
- Do not write your name on the survey.
- Collected data may be publicised and referenced in our AGS/GAS annual report and other public reporting procedures.
- Individual surveys will remain confidential and privy to Director and Managers.
- This survey is available in French.
- You have a right to request this survey be translated into a non-official language.
- If you have comments or suggestions about this survey, please forward information to a person in the management role.

Why are we collecting diversity and equity data?

As a culturally conscious and publicly-funded organization, we feel that it is necessary to encourage and foster staff and volunteers who identify as being culturally and socially diverse. By collecting and analyzing diversity and inclusion data, we can promote the hiring and retention of a workforce that properly represents our geographic region. Furthermore, we hope to encourage diverse members of upper-management including Board of Directors, sub-committee members, and managers.

By having a diverse workforce, we can properly represent the citizens of Sudbury, Ontario and Canada through our dynamic and inclusive exhibition, education, and collections management initiatives.
