Think about your community – its assets and its opportunities.  
Get into pairs and take turns interviewing each other.

Ask:

**What are the values that are core to this community?**

**To you, what are the most valuable assets (places, people, events, groups, things) within this community?**

**What are the biggest issues facing this community?**

**What are your biggest hopes for this community?**

**How do you imagine the future of this community?**
